SUMMARY

Achieved successful development of responsive web applications through expertise in React, Django, and RESTful APIs. Delivered secure authentication and real-time features that improved user experience. Enabled AI integrations that transformed user-focused solutions into innovative platforms.

SKILLS

Frontend React, JavaScript, HTML, CSS, Tailwind, Bootstrap	Backend Django, Django Rest Framework (DRF), Express, Python, Node.js
Tools Git, GitHub	Deployment Render, Vercel, Netlify

PROJECTS & EXPERIENCE

Redstar School Management System  <i>React, Django, DRF</i> - Developed a full-featured School Management System with React, Django REST Framework, and Tailwind CSS, covering secure authentication, RESTful APIs, and full CRUD functionality. - Teachers can assign homework, take attendance, and track their salary history and upcoming payments, while students can view assignments and send anonymous complaints to the administrator, each with their own dedicated dashboard.
EditorPress.js  <i>React, TipTap, Shadcn</i> - Built a rich text editor with React, TipTap, and Shadcn that supports Markdown style typing, text formatting with headings, font size, color, and alignment, plus image upload with resize and captions, and table insertion. - Fully responsive on mobile and returns structured JSON with title and content on save.
AI-Powered Chat App  <i>Django, Websocket, AI, Channels</i> - Built a real-time chat app with Django where users can send friend requests, chat one-to-one, and interact with an AI assistant powered by the Gemini API. - Includes secure authentication and password reset, with WebSockets handling live messaging between users.
MovieHouse  <i>Django, Redis</i> - Developed a free movie streaming web app using Django with secure user authentication and password reset functionality. - Integrated Redis caching to reduce unnecessary API calls and built a responsive profile page where users can update their details and upload a profile picture.

EDUCATION

+2 with CS <i>Redstar English Boarding School</i> Completed my +2 on management faculty with Basic Math and Computer Science	2024 – 2026 Pathari Sanischare -02, Morang, Nepal
Grade 10 <i>Araniko Memorial Secondary English School</i> Completed my secondary school with 3.63 GPA in SEE	2010 – 2024 Sunbarshi -02, Morang, Nepal
